

## Environmental Discourses in International and Public Law, Aug 13-15, 2009

**Date: 13-15 August 2009**

**Location: Australian National University**

**Event Type: Member Sponsored Event**

This workshop, hosted by the Centre for International and Public Law and the Australian Centre for Environmental Law, will explore how dominant environmental thought and action, often drawn from non-legal disciplines, has been placed within public and international law. By bringing public lawyers and international lawyers together with academics from related disciplines to the table to learn and draw from each other, the workshop will investigate how the law at different and connected spheres can contribute to the resolution of some of the crucial issues facing society.
